

Practically thought!

Your logo-system
with badge bay for your logo

Stop End

a product for the simple click-on system, with rubber sealing for easy push-on installation

Downpipe connector

a product for the simple click-on installation

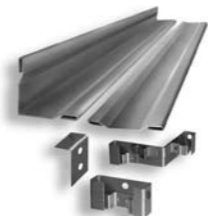

Gutter expansion

one side neoprene vulcanized, with cover

WZ-chimney mantle

standardized corner profiles enable a fast covering of all chimneys

Sliding collar with leaf basket

leaf basket made of stainless steel, a later installation is also possible

Leaf protection

leaves from the roof are kept away from the gutter, a later installation is also possible

Gutter sieve

a leaf collector for easy installation in the gutter drain

Drivepipe

the special protection for the downpipe at endangered places, available with cleaning hole

WZ-chimney hood

perfect chimney hood, rain is kept away and enables a better flow

Clever solutions

Rainwater pipe flap

enables a cheap and environment-friendly use of rainwater for the garden, also available with sieve

Water collector

enables a cheap and environment-friendly use of rainwater for the garden, with overflow protection and installation set

Outlet

with compass card, reinforced bend, eye and bevel, welded on backside

with 3-points-set for an easy and fast installation without tools

Elbow

perfect, made of one piece, exact fitting, with bevel

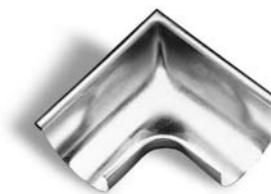

with bead for the 3-points-set for an easy and fast installation without tools

S-Curve

one-piece, made of pipe, modern, perfect fitting, with bevel

Corner

seamless deep-drawn, continuous water bend, stabilization with fixed bead

Professional quality

Stop Ends

half-round and box-shaped, for seaming, for soldering, for push-on installation, quarter ball

also available with badge bay

Inclined outlet

cylindrical exit, variable incline

Gutter hook

with reinforcing seam, spring/spring

Gutter and downpipe

according to EN 612, bead form II

Brackets

closing screw made of stainless steel with locked nut, with pin or thread socket for screw

The complete range

Gutters

gutter, gutter connector, gutter hook, fascia hanger, leaf protection, gutter sieve

Corner/Miter

inside corner, outside corner, box-shaped corner, corner with a side length of 500 mm, corner with narrow radius, corner with a bead of 14 mm

Stop End

stop end, stop end for soldering, logo stop end, quarter ball stop end, stop end for push-on installation, box stop end for seaming or soldering

Outlet

outlet, logo outlet, inclined outlet, hinged outlet, gutter outlet, box gutter outlet, hopper

Downpipes

downpipe, downpipe connector, downpipe reduction, pipe cover, bracket, downpipe junction, drivepipe, sliding collar, logo holder

Elbow

elbow 40°, 60°, 72° and 85°, s-curve, beaded elbow, downpipe angle, square elbow, elbow Vario

Accessories

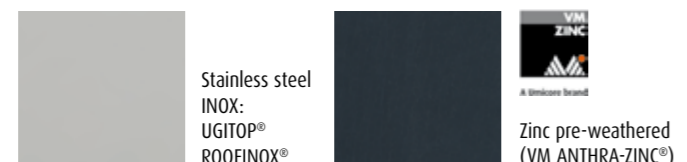

expansion roll, water collector, rainwater pipe flap, WZ-chimney hood, WZ-chimney mantle, bead, screw caps, pins, DICHT 7 glue

Variety

Copper, zinc or aluminium??

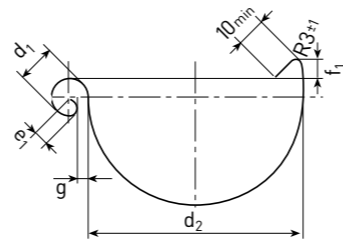

As copper, zinc, galvanized steel, stainless steel or aluminium are used by architects and building owners during the planning stage for the architectural design. It is true that the architectural style defines the material of the roof drainage.

Whether country house or the clean features of the Bauhaus style: Zambelli gutter systems are always the suitable products. The reason is that Zambelli gutter systems are available in different materials. As usual of an extraordinary high quality.

Illustrations are similar; differences in colour are due to the printing

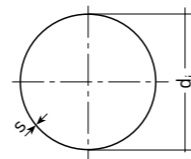

Technical information

Halfround gutter

dimension	200	250	280	333	400	500
cutting width	+1/-2					
d ₁	±1	16	18	18	20	22
d ₂	+2/0	80	105	127	153	192
e ₁	±1	5	7	7	9	9
f ₁	min.	8	10	11	11	21
g	±1	5	5	6	6	6

thickness S	Al aluminium	0,70	0,70	0,70	0,70	0,80	0,80
	Cu copper	0,60	0,60	0,60	0,60	0,70	0,70
	St galvanized steel	0,60	0,60	0,60	0,60	0,70	0,70
	Zn zinc	0,65	0,65	0,70	0,70	0,70	0,80
	VA stainless steel	0,50	0,50	0,50	0,50	0,60	0,60

Downpipe

dimension	60	80	100	120	150
d ₁	60	80	100	120	150
downpipes with dimension 76 and 87 are used regionally					
d = inside diameter at the upper end					
thickness S	Al aluminium	0,70	0,70	0,70	0,70
	Cu copper	0,60	0,60	0,60	0,70
	St galvanized steel	0,60	0,60	0,60	0,70
	Zn zinc	0,65	0,65	0,65	0,70
	VA stainless steel	0,50	0,50	0,50	0,60

About us

Production

Most modern production technologies with highly efficient productivity

Logistics

Current inventory, barcode supported booking, reliable forwarders

Certification

Certified quality management according to DIN ISO 9001:2000, environment management according to DIN ISO 14001

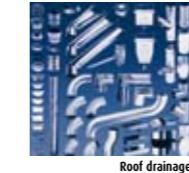

Environment

Voluntary engagement in the "Umwelt-pakt Bayern" for which Zambelli received the Bavarian State Medal of the year 2004

Staff

Motivation, achievement and qualification in all departments
